Material: food grade PP	Material: food grade silicone	Material: food grade PP	Pink, Black, Yellow, Blue, Clear white, Green

## B. Combination steps

<p>1. Install the part [d.] in the groove at the lower end of [f.]. <b>※Note: [d.] Install the wider side upwards.</b></p>	<p>2. Install the part [a.] in the upper groove of [f.]. After installation, you can use your fingers to press the lid inward.</p>
	
<p>3. Install the part [c.] in the upper square hole of [a.].</p>	<p>4. The combined lid is directly pressed into the 30 oz tumbler.</p>
	
<p>5. Install the part [g.] on the inside of [b.] and push it in to the end.</p>	<p>6. Install the part [j.] in the groove under [b.].</p>
	
<p>7. Screw the part [e.] into the thread [b.] to the end and tighten.</p>	<p>8. Insert the part [b.] into the round hole of the cup cover to complete. <b>※Note: If it is not installed correctly, it may cause leakage.</b></p>
	

## 2. Special feature installation steps

### A. Sport thermos cup (No straw)

<p>1. Remove the part [h.] unsealing strip.</p>	<p>2. After completion, it can be opened and closed through the front protrusion.</p>
	
<p>3. Remove the part [e.], replace it with [h.], and screw it down to the end.</p>	<p>4. Click directly into the round hole of the lid to start using. <b>※Note: If it is not installed correctly, it may cause leakage.</b></p>
	
  <p>One-touch cap operation movie</p>	<p><b>【Note】</b></p> <ol style="list-style-type: none"> <li>1. The drinking method of this function is "sucking". Because the cup is sealed, it is assumed that the lid of the silicone cup will be deformed and may cause leakage, so please drink with a small amount and more.</li> <li>2. When operating, use your middle finger to hold the back of [h.], and use your thumb and index finger to switch. 【h.】</li> <li>3. The cover has a three-stage design: <ul style="list-style-type: none"> <li>● One click in the first stage: dustproof but not leakproof (recommended)</li> <li>● Two clicks in the second stage: dust-proof and leak-proof (recommended)</li> <li>● The third stage is tightly closed.</li> </ul> </li> </ol>

## B. Boba milk tea cup (No straw)

1. Remove the installed [a.].	2. Set aside.
	
3. After adding the parts [i.] into the ingredients, put them directly into the [f.].	4. 【B.】 After removing the whole set with lid, eat the ingredients through the round hole of the lid.
	

### 【Note】

- If you feel that it is heavy to use, please do not force it. We also have a straw cup function.
- When adding ingredients, [i.] can be removed and added directly, or it can be added to the 30 oz tumbler cup.
- If the ingredients are not soaked in the beverage all the time (such as drunk or not filled), they may become dry and lose lubricity. You can tilt the cup slightly to let the beverage soak the ingredients before eating.
- The actual eating method of this function is to absorb, please use a little force when eating.

### C. Sharing thermos cup

<p>1. Remove the installed [a.]</p>	<p>2. Put the tea bag into the part [i.], put it directly in [f.], and add hot water.</p>
	
<p>4. Remove the part [c.] and let the hot air leak out so as not to cause the lid to expand and loosen. ※ 【C.】 Take it off to increase the water output of the tea soup.</p>	<p>4. Remove [e.] to start using.</p>
	
	<p>※Applicable to all accessories of YETI 30 oz rambler tumbler : including bag, handle, etc. (You can buy it online)</p>

## D. Dustproof straw cup

<p>1. Remove [b.] directly and put it into the environmental protection straw.</p>	<p>2. Click [b.] into the round hole [a.].</p>
	
<p>3. If you use environmentally friendly straws that are hard or longer (over 22 cm), please use [k.]</p>	<p>6. Just snap the part [k.] into the round hole [a.].</p>
	

## E. How to clean

<p>1. Daily cleaning</p>	
<p>a. a. After use, please wash and rub with water or use soft objects such as sponges to clean. Do not use sharp objects such as steel brushes to avoid scratches.</p>	
<p>2. Strengthen cleaning</p>	
	<p>a. If you don't wash it immediately and cause the tea stains or the sugar to dry and leave stains, you can buy "sodium percarbonate" to use.</p> <p>b. 使用方式如下：</p> <ul style="list-style-type: none"> <li>● Separate all parts of the "cap" and immerse them in water.</li> <li>● Add an appropriate amount of "sodium percarbonate" to the water.</li> <li>● After stirring until bubbles are formed, let it stand overnight.</li> </ul>
